6/21/69.

Dear Gus:

Congratulations on the Rockefeller Grant!

I am enclosing a bank signature card.

For your own convenience I suggest you complete it as suggested on the therefor copy; you can revise later at will. You can mail this back to me with any checks you want cleared: endorse them "For deposit only - Pay to the Bank of America" and I will see they are deposited to your account. Or I will make a token deposit of \$1. - cash on your behalf to open the account.

Could you do me a comparable favor - to clear my account in Melbourne of its remaining £12±, per the attached order. There's no point my losing £1 in charges per annum for an inactive account.

You can reimburse me in any of the following ways, at your own discretion:

1. Keep it in your own savings account for future contingencies.
2. Or \$450 at leisure over here.
3. Buy some moderately speculative Australian

company common stock at your discretion
and my risk leaving the share(s) in
Melbourne at your convenience (there would
be some Treasury regulations against exporting
it now: I'm counting on all such formalities
being lifted in due time).

A letter from Svet-Moldawsky: he hasn't
been able to reproduce induced tolerance to 'flu.

Just 4 words & Mel Cohn who has just
arrived — all his experiments have been with
long-immunized animals. ^{How long were yours?}

To you of the
Sir Mac stiffened up a bit later ~~to you~~
and is less worried about anti-bacterial antibodies.
How truly is this ever a primary response? Can
you say except & germ-free animals? —

The newspaper here had an aphorism, aren't you
thesis-writing: Copy from one source: plagiarism;
... from several: research. Sorry to hear of your
illnesses, hope you are well now.

^{Also}
Your ship ~~will~~ ^(Aug. 13) stop over at
~~Harriet~~ Suva. If so you ought to see
Roy Edwards, who's an interesting chap doing an
interesting job as principal of the Central Medical -
School for native practitioners. Syd Kubbe
knows him very well. He might just still be
there when your ship calls - he's written
something about visiting here sometime
in August.

We'll be meeting you at the pier on
August 26. Be sure to let us know of any
changes of plan. We'll contact the Local ~~for~~
^{OTL} office for exact arrival.

Bon voyage.

J.
